## SC Logistics Study

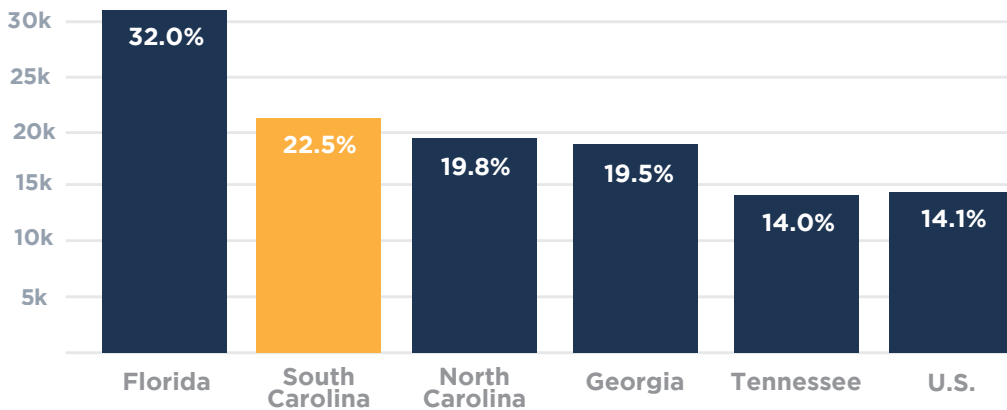

SCLOGISTICS

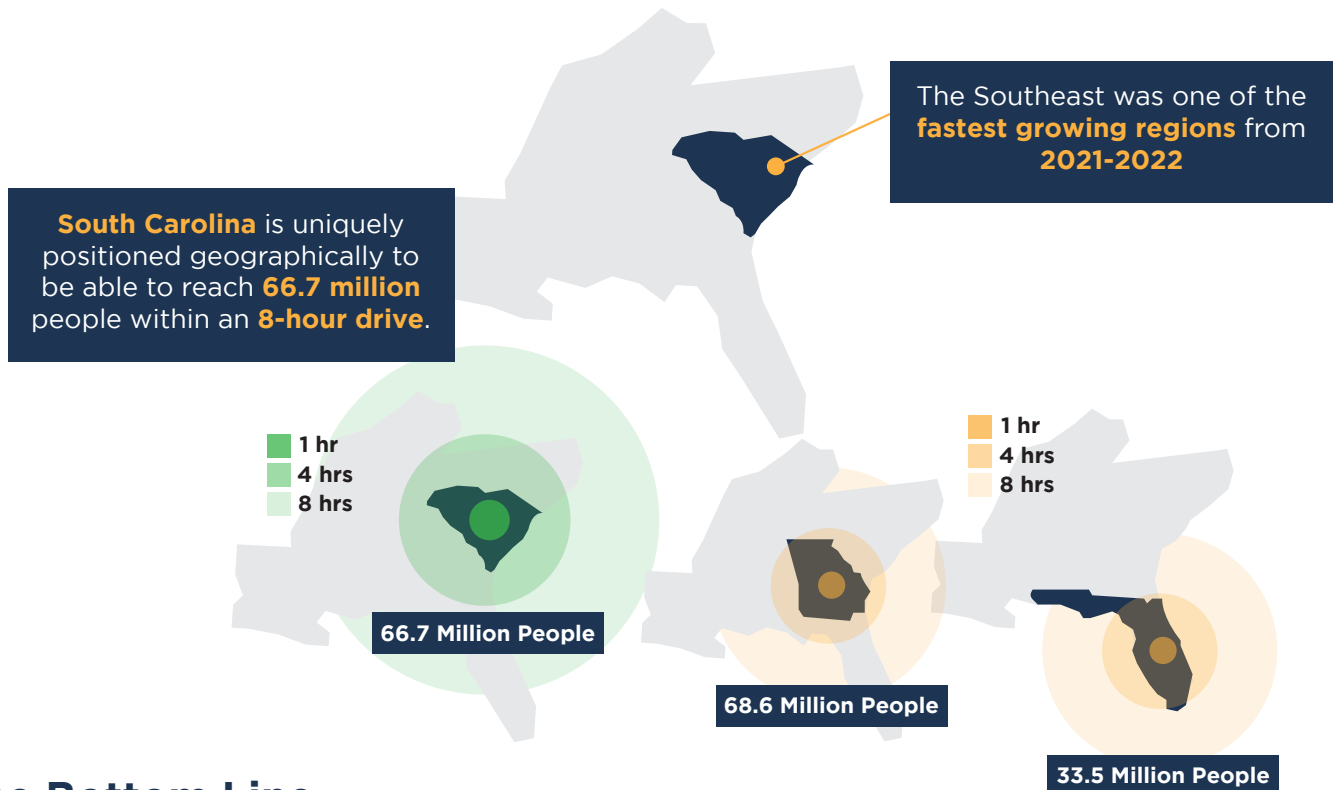

an initiative of  SC COUNCIL ON COMPETITIVENESS

### Projected Population Growth (2020 - 2040)

Source: U.S. Census Bureau

Projected population growth **2020-2040**: SC is projected to grow by **22.5%**

### The Bottom Line

In addition to historical reasons for recent growth of South Carolina's logistics industry:

- **Large manufacturing industries in aerospace and automotive**
- **Business friendly environment**
- **Investments in both the inland and Charleston ports**

the combination of population growth trends and geographic population reach for South Carolina suppliers presents an opportunity for the Palmetto State to **become the logistics hub for the Southeastern US.**
